NOTE

Health insurance and medical coverage in France - How it works?

Health insurance is compulsory for everybody, and is called **Sécurité Sociale.**

Although the social security system is officially the responsibility of the Caisse Primaire d'Assurance Maladie (CPAM), **the social security system for students is run by two organisations** (*only one has to be chosen*):

> Either **LMDE** (La Mutuelle des Etudiants) www.lmde.com

> Or **SMENO** (the Société Mutualiste des Etudiants Nord-Ouest) www.smeno.com

Registration with the student social security system is carried out at the same time as **registration with the Registrar's office in the host university**.

Payment is required for this registration (cf. 2017-2018: € 217) **at the student charge**.

Students who must register with the French student social security system

All French students, as well as those who are citizens of a country other than those of the European Economic Area (Member countries of the European Economic Area: the 28 countries of the European Union as well as Norway, Iceland, and Liechtenstein), who are under 28 years old on 1 September of the current academic year and enrolled in an establishment registered to that effect by the Social Security are concerned.

Students exempt from having to register with the French student social security scheme

Students who are citizens of a member state of the European Economic Area. You must have :

> Either the European Health Insurance Card issued by the appropriate social welfare department of your home country (which must be requested before your departure),

> Or another equivalent document. Healthcare expenses will be reimbursed by the Caisse Primaire d'Assurance Maladie (CPAM) with which you have registered.

Students from Quebec

You must have form SE401Q102 Bis, or, if you are participating in an inter-university exchange, form SE401Q106. If you have neither of these forms, you must contact the student health insurance companies (mutuelles étudiantes) in France.

Students who cannot benefit from the student social security scheme

If you are 28 years old or more, you have to take out private voluntary insurance cover either in France or in your home country. If your financial situation does not allow you to do this, ask the student insurance companies for information about the Couverture Maladie Universelle (CMU – universal sickness cover). The CMU scheme enables anybody who is legally resident in France and who does not fall into the remit of another social security scheme to benefit from health insurance payments for healthcare-related expenses.
