

UniLaSalle Campus

Study in Europe

Study on our campus in **France** and with our **partner institutions** at the **University of Pisa in Italy** and the **AERES University of Applied Sciences in the Netherlands**. Explore the geophysical and cultural characteristics of high quality, multifunctional food production. Through lectures, workshops and field visits, you will gain insights into regional cultural landscapes and discover what makes European food production unique. The **optional work placement program in France** will provide you with an immersive experience of living and working in France.

ADMISSIONS:

Application deadline :

FEB 15, 2018

An experiential approach to
sustainable food production

Discovering European Food Heritage

Near Pisa: San Rossore Natr'l Park

Summer School 2018
in France, Italy and the Netherlands
Followed by an optional one-month work placement in France

Vineyards of Champagne by Pline, Wikimedia Commons

The emergence of monocultures in farming, the rise of convenience food and gradual loss of food knowledge have created a growing interest in locally sourced and sustainably produced food. This interest also reveals the need for a sense of place with a rising number of consumers. Food, it seems, has an increasingly important role to play in creating and maintaining sustainable landscapes. **This summer course** compares agricultural systems in France, Italy and the Netherlands and addresses topics such as innovative initiatives in food production and processing, food quality labels, and landscape research. The course will be beneficial to students in agricultural economics, environmental sciences, food sciences or landscape sciences.

Admission requirements:

Juniors, Seniors or Master degree students in Agricultural Engineering, Agricultural Economy, Agronomy, Landscape Ecology, Human Ecology, or Geography from an accredited institution.

For non-native speakers of English: 785 TOEIC; 87 Ibt TOEFL; 6.5 IELTS. **French** is not required, but basic French is recommended for the work placement option.

Credits:

Up to 8 US Credits: 4 US Credits for the on-campus program and 4 US Credits for the one-month work placement.

Costs:

Partner universities:

On Campus Program: **2600€**

On **Campus + internship:** **3000€**

Non-partner universities:

On Campus Program only (no work placement option): 5400€

Costs include:

- One Way transportation from CDG Airport to LaSalle
- All field visits and excursions, incl. transportation, overnight accommodation and meals
- Transfer to and from Italy and the Netherlands
