SAFIE

Sustainable Ag & Food for Innovation & Entrepreneurship

*“Become an international expert
based on the French know-how ”*

The 1st BSc & MSc Integrated Program★ **Fully in English**

★ Engineering Master Degree in Agronomy and Agro-industry

DEAN'S WELCOME WORDS

Founded in 1855, UniLaSalle has been training students with 3 main objectives: **personal fulfillment**, **academic excellence** and **ability to face challenges**.

You are looking for an **international career**, while contributing to resolve the major challenges your community or our planet are facing? By joining the Sustainable Ag. & Food for Innovation and Entrepreneurship BSc / MSc program you will acquire key competencies and know-how to deal with **agricultural, food and environmental issues**. The solutions lie also in the hands of international entrepreneurs!

At UniLaSalle, you will join a **vibrant student community** where there are new friendships to be made. In the **heart of Europe**, you will discover new cultures and fascinating regions, with many opportunities to explore.

Be sure that the entire educational community of UniLaSalle is mobilized to make these 5 years a turning point in your life.

See you next September,

Marie Lummerzheim
Dean of UniLaSalle Rouen

"I loved my time here! This has been a one of kind experience with incredible people from around the world. The vast majority of classes exceeded my expectations and allowed for me to learn great amounts of perspective."

Timothy Hoheneder,
Inbound Student 2018 - USA

You really do matter

UniLaSalle is a community that truly captures the spirit of "togetherness".

Here, students work together to **organize activities and events**, developing their **sense of responsibility**.

We are supportive of our students' diverse needs, which is why our campus is **fully equipped for students with disability**. Day after day, we work together to build the sense of attachment and pride that our establishment is known for.

Christophe Gangneux,
Program Director
